Diane Howard participates in NRC Planning Committee for ERC Conference.

Diane received an invitation to work with the National Relocation Planning committee for the annual Employee Relocation Council (ERC) conference. "As Vice President of Relocation America this is a tremendous opportunity to work with peers in the industry," said Howard. She brings over 20 years of management and training experience in real estate and relocation.

"Worldwide ERC's conference is packed with informative training sessions, guest speakers and workshops. Each planning committee member has a relocation background which will be helpful when planning the overall format for the conference. There are specific guidelines that must be considered when coordinating the conference schedule. What a treat to work with colleagues that live and breathe relocation every day," said Howard.

This industry is ever changing and there should be value packed sessions available to all ERC members. "Our mission will be to contribute to the education experience. This opportunity will be a highlight both professionally and personally!"
