Relocation America pilots a program to feature their local premarket and inventory homes on multiple websites to attract buyers.

Working through their parent company, Relocation America utilizes the services of the largest local broker, Real Estate One to provide additional exposure for their local listed properties. Relocation Specialists are encouraged to use multiple photos and marketing key words to create activity. Real Estate One's website promotes over 1.6 billion unique visits to their website in 2009.

In addition their featured properties list is marketed to the world through their extensive web network that provides the most marketing exposure for their homes. This can make the difference in the time it takes to sell a property and provide the client with a reasonable price in the shortest amount of time.

Relocation America's goal is to assist their clients with the management and sale of their premarket and inventory properties and to create a cost effective solution through this enhanced marketing initiative.
